

JASKARAN SHARMA

Senior Flutter Developer | Mobile Application Engineer | Cross-Platform iOS & Android | Immediate Joiner
sharmajaskaran668@gmail.com | +91 991-464-8909 | linkedin.com/in/er-jaskaran-sharma-115159202 | jaskaran5.github.io | pub.dev

PROFESSIONAL SUMMARY

Senior Flutter Developer with **3+ years** of experience engineering and shipping **18 production-grade iOS and Android mobile applications** — **8+ built entirely from scratch** — across fintech, ride-hailing, on-demand, social media and real estate verticals. Delivered measurable impact: **40% faster app load times**, **35% crash rate reduction** and **80% unit test coverage** via Clean Architecture, Dart null safety and Flutter DevTools profiling. Expert in **BLoC**, **Riverpod**, **GetX** state management; **Firestore** (Auth, Firestore, FCM, Crashlytics); **REST API** and **WebSocket** backend development with Node.js and MongoDB; and payment integrations including **Stripe**, **Razorpay** and **Plaid API**. Experienced in **Agile/Scrum**, **CI/CD pipelines**, **Git** workflows and cross-platform mobile deployment to **App Store** and **Google Play**. Mentored **3 junior developers** with **100% on-time sprint delivery**. Published **2 open-source pub.dev packages** (130+ pub points). Zero notice period.

TECHNICAL SKILLS

Mobile: Flutter 3.x, Dart, Null Safety, FlutterFlow, iOS, Android, Material Design 3, Cupertino UI, Pixel-Perfect UI, Responsive Design, Cross-Platform Mobile Development, Jetpack Compose (basic)

State Mgmt: BLoC, Riverpod, GetX, Clean Architecture, MVVM, MVC, get_it Dependency Injection

Backend: Node.js, Express.js, REST API, WebSockets, JWT, OAuth 2.0, Multer, Nodemailer, MongoDB, Mongoose ODM, PostgreSQL

Firebase: Firebase Auth, Cloud Firestore, Cloud Functions, Firebase Crashlytics, FCM Push Notifications, Firebase Analytics, Firebase Cloud Storage

Payments: Stripe, Razorpay, In-App Purchases, Plaid API, Payment Gateway Integration

Integrations: Agora SDK (Video/Audio), ChatGPT API (OpenAI), Google Maps SDK, NFC, Real-Time Chat, WebSockets, Platform Channels

DevOps: Unit Testing, Widget Testing, Integration Testing, CI/CD Pipelines (basic), Git, GitHub, App Store Connect, Google Play Console, Agile, Scrum

WORK EXPERIENCE

Flutter Developer | Apptunix — Mohali, India | Feb 2026 – Mar 2026 (Short-term contract — project scope completed)

- Delivered 3 pixel-perfect Flutter ERP desktop UI modules (Mac, Windows, Linux) within Agile sprint cycles, earning client sign-off with zero revision cycles.
- Engineered responsive cross-platform layouts with native OS adaptations — keyboard shortcuts, platform menu bars, dynamic window sizing — eliminating UI inconsistencies across targets.

Flutter Developer | Paras Technologies — Mohali, India | Jan 2024 – Nov 2025

- Engineered and shipped 6 Flutter mobile apps from scratch (iOS & Android) with 100% on-time delivery across all Agile/Scrum sprint cycles, across 3 client verticals.
- Improved app performance by 40% (load time) and 35% (crash rate) via Dart null safety, Flutter DevTools memory profiling and targeted widget rebuild optimisation.
- Integrated ChatGPT API (OpenAI), Plaid API, full Firebase suite (Auth, Firestore, FCM, Crashlytics, Analytics) and Agora SDK (video/audio) across 4 live apps on App Store and Google Play.
- Architected Node.js/MongoDB RESTful API backends and WebSocket real-time layers with OAuth 2.0 and JWT authentication, powering real-time features across 3 production apps.
- Mentored 3 junior Flutter developers: enforced Clean Architecture, MVVM patterns, weekly PR code reviews and CI/CD pipeline setup — cutting review cycles by ~30%.

Flutter Developer | AppScrip — Mohali, India | Nov 2022 – Nov 2023

- Independently built and launched 5 Flutter apps from scratch (dating, social networking, real estate) with 50+ responsive screens, OAuth 2.0 auth flows and real-time WebSocket chat — all live in production.
- Achieved 80% unit/widget test coverage on authentication and chat modules, reducing post-release bug reports by ~25% across 2-week Agile/Scrum sprint cycles.

Java & Software Developer | PMDC – Punjab Government — Punjab, India | Aug 2022 – Oct 2022

- Maintained government Java web portals (Spring MVC, Hibernate ORM); updated Chief Minister of Punjab's official photo across portal pages and deepened PostgreSQL database skills.

KEY PROJECTS

Ayuta – Community Committee App | Flutter, BLoC, Firebase, Stripe, Node.js, MongoDB

Built from scratch: digital committee management with group savings tracking, Stripe payment collection, member onboarding, real-time Firestore sync and automated contribution scheduling. Clean Architecture, BLoC.

DeRyde – Ride-Hailing Platform | Flutter, Google Maps SDK, WebSockets, GetX, Firebase

Built from scratch: Uber-style app with real-time driver tracking (Google Maps SDK), WebSocket live location updates, surge pricing engine and multi-role auth (rider/driver/admin).

North Shore Nanny – On-Demand Booking | Flutter, Stripe, Google Maps SDK, WebSockets, Firebase

On-demand service platform: Stripe payment gateway, real-time WebSocket chat, location-based matching algorithm and automated shift scheduling engine.

Koottu – Dating App | Flutter, GetX, OAuth 2.0, Firebase, FCM

Built from scratch: swipe-based matching engine, real-time chat, Google/Apple OAuth 2.0 social login and targeted FCM push notifications.

Capture 360 – Enterprise Asset Tracking | Flutter, NFC, Firebase, REST API, GetX

NFC-powered asset management: tag scanning, GPS geo-stamping, Firestore real-time sync, photo capture and full audit trail reporting.

Our Review – Business Review Platform | Flutter, Firebase, GetX | Live on Google Play Store

Live on Google Play Store: real-time Firestore reviews, Firebase Cloud Storage image uploads and location-based business discovery.

Teemoh – Parcel Delivery Management | Flutter, Riverpod, Firebase, WebSockets

Multi-role delivery app (sender/courier/admin): WebSocket live parcel tracking, barcode scanning, route optimisation and real-time status push notifications.

AskMe – Social Q&A Platform | Flutter, GetX, Real-Time Chat, Firebase

Social media Q&A platform: real-time threaded discussions, FCM push notifications and automated content moderation at scale.

OPEN SOURCE CONTRIBUTIONS — pub.dev

flutter_sms_pro (pub.dev/packages/flutter_sms_pro) — Flutter package for automated SMS via native Platform Channels on iOS & Android. Zero external dependencies. 130+ pub points.

read_more_text_plus (pub.dev/packages/read_more_text_plus) — Animated expand/collapse Flutter text widget with custom styling and full RTL support. 130+ pub points, adopted across multiple production Flutter apps.

EDUCATION AND CERTIFICATIONS

B.Tech – Computer Science and Engineering | Quest Group of Institutions | 2022

Certified Java Full Stack Developer | QSpiders, Chandigarh | 2022
